HOLDS

VOLUMES

All our volumes are made of 18mm 13 layers birch plywood. Birch gives the right combination of mechanical resistance and elasticity. We only use screws and glue, no nails or clips whatsoever.
Wall mounting can be done with screws inserted through pre-made slots and reinforced with metal washers to improve durability.
Most of our volumes can be made in a bolt-on version; this gives you multiple advantages, from ease of mount to fewer holes in your panels and ease of volume placing.
Our threaded inserts are made of galvanized steel with two holes and round base.

Our texture is made of a mix of resin and quartz sand with a max 0,35mm granulometry.
The resulting surface is easily washable with water and brush or pressure washer: once dried, your volume will be like new.

We are also able to provide you with custom volumes of any shape and size.

COLORS

Our volumes are usually painted in the following RAL colors, but we can also paint them in custom colors.

Our logo can be painted in the same RAL colors or in custom colors as well.

We can also print custom logos using laser-cut metal stencils to ensure the greatest accuracy.

RAL1014 - CREAM

RAL1023 - YELLOW

RAL2003 - ORANGE

RAL3020 - RED

RAL4010 - FUCHSIA

RAL4005 - PURPLE
